

Practical Course on GC-MS-based Metabolomics

Basic introduction to gas-chromatography-mass spectrometry (GC-MS) and metabolomics.

Designed to aid future metabolomics collaborations.

11th to 13th June 2024

Seminar room, BIH Metabolomics Platform (Käthe-Beutler-House), Campus Buch

Mandatory registration via

<https://www.bihealth.org/en/news/events/metabolomics-course-2024>

Please include in your application a short motivation explaining your background and reasons for joining the course.

No registration fees.

Please note that in the event of over-subscription, applicants will be chosen based on their letters of motivation.

Organizers:
BIH Metabolomics Platform

Learning objectives

- ✓ Plan a metabolomics experiment
- ✓ Understand the complexity of metabolomics
- ✓ Experience the process of sample preparation
