

**Principal Investigator****E-mail address of Principal Investigator****Institution**

If co-leader: Name / Institution

**Department****Project Title****Therapeutic Area(s):**

- Gene Therapy
- Regenerative Medicine
- Infectious Diseases
- Lung repair
- NASH/Fibrosis

- Retinal Diseases
- Obesity
- Neuropsychiatric Diseases
- Myeloid Biology
- Specialty Medicines

**I have consulted with my  
Technology Transfer Office**

**Please limit your proposal to the length of each frame and the maximum number of words. Only the proposals that respect the guidelines and the provided template will be evaluated.** Please rename your proposal as follows: BI\_Proposal2019\_\*Name\*.pdf

**Section 1 (<500 words) Need and Significance:**

Please provide a brief description of the research proposal and link to human disease and disease mechanism(s).

**Please specifically address the following in the description.** 1. What is/are the unmet medical need(s) this research addresses?

2. What are the envisioned products/applications of this research? 3. Why is the proposed research novel and translational in nature?

4. How is the envisioned product/application better than existing therapies? 5. How is the envisioned project feasible within 12 months?

**Section 2 (<500 words): Research Description**

Provide a brief description of the research plan to be carried out.

Please include objectives and specific aims. The research plan should provide clear deliverables, go/no-go decision points and timelines for the research period.

**BIOGRAPHICAL SKETCH OF PRINCIPAL INVESTIGATOR**

Please provide a brief bio-sketch of the PI and key publications

**Annex : References (please note that only bibliographic references will be considered in this section)**
