She is specialized in a wide range of issues including, social business, entrepreneurship, impact investment, gender inclusiveness, women empowerment, investment in emerging markets and wealth management, family governance and succession planning.

A networking event for women scientists

Early and intermediate career women scientists are offered the opportunity to network with a distinguished researcher or a person active in the field of technology transfer. During this open, informal seminar, topics such as career planning, conducting negotiations, and entrepreneurship will be discussed.
