

Short profile DosentRx Ltd.

CHARITÉ/BIH-PARTNER WANTED!
More information [here](#)

Medical field	Anesthesiology, Operative Intensive Care
Product (name and type)	ReX Platform, Medical DeviceS
Growth stage	Positioning for Scale
Founders	Alan Paz (CTO), Natan Paz (COO), Mark Summer (CEO), Craig Fisher (CCO)

Description of product:

The ReX Platform ("ReX") provides solid oral medication on patient demand according to a personalized preprogrammed plan. ReX comprises a pill dispenser with a touch-screen (ReX Device), disposable cassettes containing the prescribed medication (ReX cassettes), a cellphone application (ReX App), an interface which guides patients through their care plan and monitors their condition (ReX Guide), and a dedicated software (ReX Cloud) for the management and collection of data.

Project goal:

Clinic: reduce time spent by nurses, reduce invasive PCA, improve monitoring and thus patient's safety, mobility and satisfaction.

Company: The goal ist to implement ReX for oral-PCA in the European market as a standard of care.

Project type:

Conducting a pilot study.

Estimated validation time: 12 months. Estimated project duration: 12 months.
