

Short profile

FitWith Holdings Ltd.

CHARITÉ/BIH-PARTNER WANTED!
More information [here](#)

Medical field	Oncology, Gastroenterology, Cardiovascular
Product (name and type)	Diagnostics/Biopharmaceuticals/MedTech/...
Growth stage	Proof of Concept
Founders	Eli Itzhaki (CEO, CTO, CPO)

Description of product:

FitWith allows healthcare providers to deliver interactive, engaging, video based Physical Therapy sessions to their patients. By using FitWith, healthcare organizations can provide their patients customized treatments whenever they want and whenever they are with minimum effort and cost. FitWith is available for all mobile and desktop devices and is a cloud-based platform.

Project goal:

Clinic: Enable patients to continue their treatment outside the clinic and get better treatment results while keeping in touch with their therapists.

Company: Build a valid business model with the partner, grow and validate the product, expand to the local market of the healthcare location. Develop a successful partnership with the organization and cooperate together in order to scale our product in all aspects.

Project type:

Partnership, research project, clinical trial. Open to multiple types of cooperation projects.
