

SPARK EUROPE WEBINAR SERIES 2022

Wednesdays
at 4 pm CET

SPARK Europe
Education

Commercial Use of Health Related Data

Prof. Dr. Sylvia Thun

6 July 2022 | 4 – 5 pm (CET) | Online Webinar

Are you performing clinical trials or are you planning to collect health related data from other sources?
Would you like to learn more about possibilities to use health related data, besides academic purposes?

In this SPARK Europe Webinar Series, **Prof. Dr. Sylvia Thun**, professor of Digital Medicine and interoperability and director of the core unit of eHealth and interoperability at the Charité/BIH, will present you the hallmarks of options in using health related data.

Being both, a physician and engineer by training, Prof. Dr. Sylvia Thun is working on implementation of communication standards for health care to enable an optimal use of acquired data to improve the development of diagnostics and therapies. For her achievements and service in field of healthcare digitalization, Prof. Thun received the German cross of Merit in 2022.

After this talk, you will know about:

- What to keep in mind when collecting health related data?
- How to synchronize your data with established platforms?
- The advantages of standardized data formats from various sources
- How can acquired data be used in a commercial way?
- How can digitalization and interoperability improve health care?

Online via MS Teams | Please register [here!](#)

Registration to the webinar is required in advance. Please register **no later than 5 July 2022**. Please note that you will receive the MS Teams link and access code the evening before the lecture and that access to last minute registrations, cannot be guaranteed.
